

5 July 1951

AGENDA ITEM NO. 3: Initiation of a National Intelligence Study
on "Soviet Military Assistance to the Chinese
Communists"

1. It is recommended that Dr. Langer's suggestion should be endorsed.

2. This sort of request by O/NE arising out of estimates discussions should gradually have an effect upon the IAC agencies' intelligence production programs. Obviously through the development of such studies there should also be an additional favorable effect in sharpening of our collection efforts.

3. Suggestions for such studies may originate in other agencies as well as in O/NE.

4. In each case the study should be published by the agency primarily responsible for its preparation.

Concurrences:

AD/NE
AD/IC
O/BI
O/RR
